SKILLS

- Python, Java, C, C++, SQL
- HTML, CSS, JavaScript
- Git, GitHub
- OpenCV, MediaPipe
- RAG, FAISS, LLM
- NLP, Sentence Transformers

CONCEPTS

- Data Structures
- OOP
- Problem Solving
- IoT Development
- Computer Vision

EDUCATION

BTech – CSE

St. Peters Engineering College
2022–2026 | CGPA: 9.03

Intermediate Education

Sadhana Junior College
2020–2022 | 72.3%

SSC

Telangana Model School
2020 | 98%

PROFILE SUMMARY

Computer Science Engineering student with strong programming skills in Python, ML, Java, and SQL. Experience building AI-powered applications, computer vision systems, and ML-based financial risk frameworks. Proven ability to work with real-world datasets and deliver innovative solutions. Eager to leverage technical expertise and problem-solving abilities in an entry-level IT role.

PROJECTS

Machine learning-Based Analysis of Cryptocurrency Market Financial Risk Management

- Developed an ML-based framework to analyze cryptocurrency price movements, volatility, and risk levels using historical market data.
- Technologies: Python, Machine Learning, Data Preprocessing, Financial Analytics

Smart Retail Shopping Helpdesk Chatbot

- Built an AI-powered chatbot using RAG architecture for intelligent retail customer support.
- Implemented semantic search using FAISS and Sentence Transformers for accurate information retrieval.
- Technologies: Python, NLP, FAISS, LLM

Smart Hydration Water Bottle (IoT-Based)

- Designed and developed a portable smart water bottle capable of dispensing both hot and cool water using rechargeable batteries.

Volume Control System Using Python

- Developed a gesture-controlled system that allows users to adjust system volume using only hand movements.
- Libraries & Tools: OpenCV, MediaPipe, PyAutoGUI

CERTIFICATIONS

- Participation Certificate – National Level 36 Hours CMR Hackfest 2.0 (Feb 2025)
- Overview of Global Navigation Satellite System – ISRO (Sep 2024 – Oct 2025)
- Mastering SQL with MySQL – St. Peters Engineering College, 86% (Nov–Dec 2023)

ACHIEVEMENTS

- Presented research on "Volume Control System Using Python" at ICKEAI International Conference; published as a book chapter, 2024.
